Dainty Gingham Frocks

Worth Up to \$6.98, at \$4.75

A sale of extraordinary importance to every woman interested in supplying the summer wardrobe with charming frocks at savings. You will appreciate the unusual character of the values when we state that dresses identical in style and quality are being sold about town up to \$6.98—in fact, we had some of the styles in our regular stock no later than last week at much higher prices than they are offered for in tomorrow's sale.

There never was a more all-round practical frock nor one more attractive in its very simplicity than the frock of gingham—but there is a vast difference between the gingham of the present and the gingham of the past. Gingham today takes its place among the most beautiful patterns and colorings of the dress materials used by the foremost designers. So in this collection of new styles in practical summer dresses gingham will be found the dominant style note.

An unusually extensive range of beautiful styles in the new plaids and checks, showing the smartest color combinations. As to the models—they're the season's favorites. Included are Pleated, Russian Blouse, Tunic and Vestee effects, tailored and sport dresses; some with contrasting collars and cuffs. All sizes for misses and women.
